# GAUTAM KUMAR SAH

**+91 9931822789 | Email: gsah0974@gmail.com | LinkedIn | GitHub | GFG**

## Projects

**Campus Event Manager** | *Internship project* ***November 2025 - December 2025***

- Developed a full-stack campus event management system with secure user authentication, event booking, wishlist, and order history features.
- Implemented a role-based admin panel to manage users, events, bookings, and view system analytics.
- Built using **Next.js, Node.js, Express.js, MongoDB, JWT authentication, and RESTful APIs** for scalable and secure performance.

**WhatsApp Chat Analysis** | *Hackathon Project* ***January 2025- March 2025***

- Developed WhatsApp Chat Analysis model in Python and Streamlit interface, Users upload the whatsApp chat file and view analytics with ensuring full privacy to users, 85% reduction in manual analysis.
- Built visual outputs using matplotlib and seaborn to represent user activity, sentiment analysis and show engagement trends in an intuitive manner.

**Smart Redaction Tool** | *SIH Project* ***July 2024 – October 2024***

- Tool that automatically and manually hide/redact the sensitive data from Images as well as PDFs.
- Utilizing Python, machine learning, NLP and regex, created a process pipeline that allows the user to scan for patterns in a file, create an outline box around the pattern, then create a secure copy of the original file using redacted content.
- Focused on data privacy and security, helping reduce the risk associated with exposing personal or confidential information within shared documents

## Experience

**AI-Powered Developer Internship** | ***Mithila Stack*** ***December 2025 - Present***

- Developed and optimized **AI-powered full-stack web applications** using **Node.js, React, RESTful APIs, WebRTC, WebSockets, and JavaScript**, supporting real-time data processing and scalable system architecture.
- Implemented **secure backend logic and API integrations** for session handling, AI/ML model deployment, authentication workflows, and performance optimization in production-oriented environments.

**Machine Learning Internship** | ***Invigo Infotech*** ***June 2025 - July 2025***

- Worked on **data preprocessing, feature engineering, and basic machine learning models** using **Python**.
- Implemented **ML algorithms on structured datasets**, improving **data analysis, model understanding,** and **problem-solving skills** in an industry-oriented environment.

**Salesforce Developer Virtual Internship** ***December 2023 – January 2024***

- Completed Salesforce Trailhead modules on **CRM fundamentals**, **cloud-based workflows, app customization**, data management, **process automation,** and reporting, gaining hands-on proficiency in Salesforce ecosystem tools.

## Skills

- **Languages:** C, C++, Python, JavaScript, Java
- **Frameworks / Libraries:** React.js, Express.js, Node.js, Tailwind CSS, Bootstrap
- **Database:** MongoDB, MySQL
- **Data Science & ML:** NLP, Machine Learning, NumPy, Pandas, Matplotlib, OpenCV
- **Miscellaneous:** DSA, OOPS, DBMS, Computer Networks, Operating System, Software Engineering
- **Tools:** Git, GitHub, VS Code, PowerPoint, Excel, ChatGPT
- **Soft skills:** Effective Communication, Problem solving, Analytical Thinking, Leadership, Time Management

## Education

**Bachelor of Technology, Computer Science** | **CGPA:** ***7.78/10*** ***July 2022 – Present***

*Darbhanga College of Engineering, Bihar*

**Senior Secondary Education, PCM** | **75.20%** ***April 2020 – March 2022***

*S.S.P +2 High School Narahia, Madhubani*

## Awards & Certifications

- **Winner, Shankara Global Hackathon 2025**, conducted by Rajasthan Technical University, Jaipur | 2025
- Solved **300+** Data Structures & Algorithms problems on **GeeksforGeeks**.
- Successfully completed Problem Solving Through Programming in C, **NPTEL** | 2025
- Completed an 8-week online Python course on **Udemy** | 2025
- Deloitte Data Analytics Virtual Certificate **Forage** | 2025
